

"Cervena's purity of flavor makes it a favorite choice for me. It has a taste that most beef cannot match, with a subtlety that everyone can enjoy. I have used Cervena from New Zealand for over 11 years and it has been on my menu at Public since day one."

**BRAD FARMERIE,  
HEAD CHEF, PUBLIC, NYC**

## ACF Train-the-Trainer Workshops

The American Culinary Federation (ACF) is continually expanding to provide opportunities for culinarian involvement in the development and expansion of the culinary profession. Therefore, the Train-the-Trainer (TTT) workshop was established to increase the number of evaluators and certified culinarians across the country.

The first TTT workshop took place at the Houston Country Club in Houston at the beginning of October. It was a successful event, with 11 participants attending the evaluator portion and four candidates taking practical tests for certification.

ACF encourages you to become involved in the expansion of the culinary profession by hosting a TTT workshop and practical exam in your area, attending one of the workshops to become an evaluator or taking a practical exam to become certified.

### Below are schedule dates and locations.

- To add your site, please call the ACF's Certification Department at (800) 624-9458.
- If you are interested in attending one of the TTT programs to become a practical test evaluator or to take a practical test, please contact the applicable listed coordinator.

#### December 6-7, 2006

Available

#### January 10-11, 2007

University of Missouri  
Columbia, Mo.
